Requisites for Admission to College Classes.

—o—

Candidates for admission in the Freshman Class are examined in the following or equivalent studies:

Whitney's Essentials of English Grammar, Mitchell's Geography, Robinson's Arithmetic, Robinson's Algebra, Harkness' Latin Grammar and Reader, Cæsar (four books), six books of Virgil's Æneid, Goodwin's Greek Grammar, White's Greek Lessons.

Candidates for a higher standing are examined in the same studies, and also in that part of the course gone over by the class to which they may desire admission.

All students must bring satisfactory testimonials of good moral character; and those from other colleges certificates of dismission in good standing.

Thorough acquaintance with the studies required for admission is indispensably necessary in order to receive the full benefit of the subsequent College Course. It is found by experience that students imperfectly prepared for the class they enter are embarrassed in their future progress, and seldom repair the want of proper preparatory study.

STUDIES.

—o—

CLASSICAL COURSE.

FRESHMEN YEAR—FIRST TERM.

Xenophon's Anabasis	Anthon.
Virgil	Cooper.
Algebra	Wentworth.
Geometry (through five books)	Wentworth.

Law of Nations	Gallaudet.

Forensic Discussion and Occasional Select Reading in Classics throughout the year.

—o—

SCIENTIFIC COURSE.

FRESHMAN YEAR—FIRST TERM.

English—Chittenden's English Composition.	
French—Bocher's Otto's Grammar, with Ahn-Heun Charts	
Spanish—Knapp's Grammar (commenced)	
Algebra	Robinson.
Geometry (five books)	Davies' Legendre.

SECOND TERM.

English—Reed and Kellogg's Higher Lesson in English	
French—Otto's Grammar (completed), Polodet's Beginner's French Reader	

German—Otto's Grammar (completed), Ahn's First German Reader . . . . . .
Spanish—Knapp's Grammar (completed), .
Algebra (completed) . . . . . Wentworth.
Geometry (completed) . . . . . .
Composition and Declamation throughout the year.

SOPHOMORE YEAR—FIRST TERM.

English—Welsh's Development of the Literature and Language . . . . . .
French—Telemaque . . . . . .
German—Select Readings . . . . .
Spanish—Knapp's Readings (commenced) .
Trigonometry (Plane Spherical) . . } Wentworth.
Mensuration of Surfaces and Solids . . }
Physiology . . . . . Hutchinson.

SECOND TERM.

English—Welsh's Development of the Literature and Language (completed) . . .
French—Modern and Classic Plays . .
German—Classic Plays . . . . . .
Spanish—Knapp's Modern Readings . .
Navigation and Surveying . . . . Wentworth.
Analytical Geometry . . . . . .
Zoology . . . . . Steele.

JUNIOR YEAR—FIRST TERM.

French—Otto's Grammar, Part II, Classic French Plays . . . . . .
German—Otto's Grammar, Classic German Plays . . . . . .
Physics . . . . . Gage.
Chemistry . . . . . Youmans.
Evidences of Christianity . . . . Ralston.

SECOND TERM—THROUGHOUT THE YEAR.

Analytical Geometry . . . . . .
French—Otto's Grammar, Part II, Classic French Plays . . . . . .
German—Otto's Grammar, Classic German Plays. . . . . .
Practical Application of Mathematical Principles, Hydrostatics, Pneumatics, Acoustics, Electricity, Magnetism and Optics, . Gage.
Mineralogy . . . . . .
Chemistry. . . . . Youmans.
Rhetoric . . . . . Bain.
Composition and Declamation throughout the year.
Spanish may be substituted for French or German during the Course.

SENIOR YEAR—FIRST TERM.

Differential and Integral Calculus	Davies.
Meteorology	Brocklesby.
Geology	Dana.
Moral Philosophy	
Political Economy	Amasa Walker.
Logic	Coppee.
Mental Philosophy	Mahan.

SECOND TERM.

Agricultural Chemistry	Johnston.
Political Economy	Amasa Walker.
Astronomy	Loomis.
Constitutional Laws	Story.
Laws of Nations	Gallaudet.

Forensic discussion throughout the year.

The English Course prescribed is more thorough than heretofore required. With most students who come to us there is a lamentable deficiency in the correct knowledge and use of our language. We have, therefore, enlarged the Course with the design of removing this deficiency.

In the modern European languages the student is required to render exercises both orally and in writing, as well as to translate regular discourse. Thus the natural and scientific methods are both daily employed.

Anthon's Classical Dictionary, Smith's Greecian and Roman Antiquities, and Mitchell's Ancient Atlas are used for reference by the classical students throughout the Course.

The members of the Senior Class deliver orations before the Faculty and students throughout the year. Greek and Latin Compositions will be attended to during the first three years of the Classical Course. Dictation, Declamation and Composition in the French, German and Spanish Languages will be attended to throughout the whole Scientific Course. Chemistry is taught by Recitation and Lecture, accompanied with Experiments. Regular Lectures will be delivered by the President and Professors upon the subjects connected with their several departments.

EXPENSES.

Tuition for Collegiate Year (half in advance) . .	$60 00
Tuition in Preparatory Department (half in advance)	40 00
Contingent Fee (half in advance)	5 00
Meals at Stewards' Hall (per scholastic month . .	9 00
Board at Stewards' Hall, including room, bed, washing, lights, fuel, the students to furnish one quilt and his own toilet articles, per scholastic month, . . .	13 00
Matriculation Fee, charged only once on entering College Class	5 00

Board and Lodging can be obtained in private families, ranging from $15 to $20 per month.

LIBRARY.

The College Library contains about 2000 well-selected volumes of both ancient and modern literature. The importance of such a Library to the reading student, during his Collegiate Course, is too obvious to need remark. The Library is accessible to all students.

APPARATUS AND CABINET.

The College possesses a valuable set of Philosophical, Astronomical and Chemical Apparatus, and also a well-selected Mineralogical and Geological Cabinet. The apparatus includes a Theodolite, Sextant, Compass, Chronometers, Atwood's Machine, Whirling Tables, Electrical Machine, Air Pumps, various combinations of the Mechanical Powers, Batteries, Chemical Tests, etc., sufficient for an extended course of observations and experiments.

ALUMNI ASSOCIATION.

There is an annual meeting of the Alumni Association on Tuesday before the first Wednesday in June. At their annual meeting, July 9, 1872, steps were taken to endow a chair in the College, to be called the Alumni Professorship.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

This organization is now entering upon the fourth year of its prosperous career. The officers for the ensuing year are as follows:

W. J. Roberts, President; P. M. Brown, Vice-President; R. P. Lingfield, Recording Secretary; W. J. Ferguson, Corresponding Secretary; H. L. Norton, Treasurer; D. S. Scarborough, Librarian.

LITERARY SOCIETIES.

There are two regular Literary Societies connected with the institution. There are of great utility to a young man acquiring a liberal education—improving him in the art of public speaking, and making him in some degree familiar with the proceedings of deliberative bodies, and in cultivating systematic business habits. Each Society has a conveniont hall and well-selected library—about 1600 volumes each. There is joint exhibition of the two Societies in the middle of the session, and an Anniversary Exhibition on Tuesday next preceding Commencent day. In addition to the advantages above mentioned, each Society secures a column in some popular newspaper of the State, and appoints its "Editor and Associate" to edit it, and any of the members are at liberty to write. In these columns appear productions from the Preparatory to the Senior Class. This practice has been rigidly observed for several years, and with most gratifying results.

MEDAL.

The Hon. G. T. McGehee offers a Medal for the best oration in the College Classes. This award will be made in reference to both Composition and Declamation.

PREPARATORY DEPARTMENT.

Special attention will be given in this department to Reading, Geography, Arithmetic, History, Penmanship, Composition and Declamation; so that should a student not take the entire course, he still would be furnished with a good business education.

EXTRACTS FROM THE STATUTES.

CHAPTER VI.—*Religious Exercises.*—The exercises of every day shall be opened and closed with prayer by the President, or some other member of the Faculty, when all the students shall attend.

2. The students shall attend Divine worship in the College, Chapel, or elsewhere, every Sabbath.

3. The observance of the Sabbath is earnestly recommend, and all practices inconsistent with the reverence due to the day are expressly prohibited.

CHAPTER XII.—*Of Commencements, Sessions, Examinations and Vacations.*—There shall be two Annual Examinations: one in the middle of the session; the other commencing on Monday preceding the last Wednesday in May. The Commencement day shall be the first Wednesday in June,

2. The regular Academic year shall begin on the first Wednesday in September of each year.

3. The only regular holidays will be on Thanksgiving Day. Christmas Day, and New Year's Day. The regular vacation shall be from Commencement day to the first Wednesday of September of each year.

CHAPTER XII.—*Of Expenditures*—.Every student whose parents or guardian does not reside in Jackson, or immediate vicinity, is recommended to have an Academical guardian nominated by himself, with the consent of his parent or legal guardian, whose duty it shall be to take charge of his expenditures, with whom shall be deposited such a sum of money as his parent may think proper. In the article of pocket money the strictest economy is most earnestly recommended and requsted.

GENERAL INFORMATION.

This College was established by the State of Louisiana in 1825, and was taken under the patronage of the Methodist Episcopal Church South in 1845, and has been constantly growing in importance and usefulness. It is located in the village of Jackson, about twelve miles from Bayou Sara, in a grove of pine, magnolia, oak and beech. The location is remarkable for its beautiful woodlands, its unrivaled healthfulness, and rare social advantages

The government is mild and parental, but consistent and firm. If a student is found to be incorrigibly vicious or idle, he is dismissed. The punishment consists of demerit marks, private reproofs, public reproofs, suspension and expulsion. If a student be expelled or suspended, and the sentence be not revoked, it shall be published in the forthcoming catalogue. The reward consists of merit marks and public honors on the day of Commeacement. So that by every incentive, by appeals to the nobler principles of the nature, by affectionate entreaty and friendly counsel, by the hope of distinction and the fear of disgrace, the Faculty endeavor to maintain order and the purest moralty.

The buildings consist of a commodious Steward's Hall, two brick Dormitories, containing each twenty-four rooms, and a magnificent centre building. This latter has been erected at an expense of over sixty thousand dollars. It contains a Chapel for public exhibitions, large enough to seat over two thousand persons, two large Society Halls, a Chapel for prayer, eight commodious Recitation Rooms, one Library Room, Cabinet Room, separate rooms for Chemical and Philosophical Apparatus, an office, and other rooms for other purposes.

ACCESS.—*Railroad and Telegraph.*—The recent construction of the Mississippi Valley Railroad puts the College within five miles of a grand trunk line, affording access from all parts of the country. Telephonic and, hence, telegraphic connection puts Jackson, La.—the seat of the College—into communication with the outside world.

PROHIBITION.—The sale and purchase of liquors and wines, except for medical and mechanical uses, are prohibited, by Act of Legislature, within five miles of the College.

IMPROVEMENTS.—Friends of the College are endeavoring to raise an endowment for the College, which is being rapidly increased. Others are contributing to necessary repairs upon the grounds and buildings. We have fully fifty dormitory rooms in excellent order for the use of students rent free.

This Report, made by Prof. W. A. N. Magruder to the Board of Trustees, shows the present status of the College in several important particulars:

"Your Committee on State of the College submit the following report: First, in regard to the property. After a careful and thorough inspection, we are happy to report a state of things in most pleasing contrast with those of some former years. In both the dormitory buildings the rooms lack nothing to render them delightfully comfortable. They are roomy, in good condition, and with each its quota of young men, neat in their habits, and emulous of a true manhood, would be not only comfortable to their occupants, but attractive to visitors. They are pleasantly situated, and with all the conditions of healthfulness. The two buildings have a capacity for the convenient accommodation of two hundred students.

The exterior appearance of these buildings is pleasant, with an air of neatness and evidence of care entirely commendable. The west wing was repaired several years ago, so far as to render the dormitories comfortable. The ground floor of the gallery is still in a condition which might tempt some generous friend to invest a few hundred dollars in brick and cement. The east wing, through the generosity of Rev. and Mrs. Christian Keener, has been changed from an almost dilapidated condition to a delightful residence for students. We find no broken glass, no signs of vandalism, but the evidence of good order generally. There is much improvement in the interior of the main building. Halls have been fitted up and furnished for the various uses of the college. Much of this is due to the students themselves, and evinces a gratifying interest in their own work and in the future of the college.

We have greater cause for gratitude and hopefulness in contemplating the excellent moral sentiment pervading the student body. This is certified to by conversations with the president, faculty, the students themselves and citizens, and by our own careful observation of the town. Your committee consider that in the fine religious and moral conditions surrounding our students rests the future prosperity of the college. We refer to the total absence of defacements of the public buildings to the pure moral atmosphere about the campus. We also observe a strong *esprit du corps* growing among the students. They don't hesitate to lend a helping hand to any work in progress about the college, thus showing an interest in its welfare. We further learn that every student in attendance at the closing session intends to return, thus manifesting a personal interest and attachment for the college. The wholesome religious influences surrounding

the students is shown by the gratifying work of the Young Men's Christian Association, and the number who have entered and are otherwise engaged in active Christian work of the ministry. The citizens say "the college boys are smart," and the professors report the class standing as being high, unusually high, thus showing to the world that healthy moral and religious sentiments are not only consistent with a high grade of mental cultivation, but that the influence of the former is more than apt to promote the latter.

Your committee can conscientiously and cordially commend the college to those who have sons to educate as a safe place for their intellectual and moral development, and for aids to the formation of Christian character."
